REPORT ON AVISHKAR 2K14, INTRA ROUND

AVISHKAR - Engineering Inventions, imparts great opportunity to consolidate and review the theoretical knowledge that students implement in their upcoming engineering life. It is a unique paper presentation competition for the first year undergraduates which helps them achieve the true objectives of the technical related issues and also upgrades their knowledge in technical field.

Having been set up almost a decade ago, it wasn't as tough for VBIT as it was for other institutions to crawl, up the order, in the best colleges' list. IEEE Student Branch has had its silent yet strong influence in upbringing the prestige. Vignana Bharathi Institute of Technology is the only college in whole of Asia-Pacific (R10) region to introduce such technical platform to the first year undergraduates. The institution encourages the individual to get rid of their hidden fear in facing the crowd and come out as confident individuals. The main motto of AVISHKAR is to train the first year students on the standards and formats of presenting an IEEE paper.

REVIEW:

AVISHKAR-2K14 has been an excellent platform for the students to enhance their skills and a hint of suggestion in presenting, communicating and overcoming their stage fear. Being the first step into the professional field, AVISHKAR has given them a good start into the field of science and technology.
