REPORT ON “ TEENOVISION’13 ”

IEEE-VBIT SB under **Power And Energy Society** had taken up a innovative competition on the eve of **NATIONAL ENGINEERS DAY** .

EVENT DESCRIPTION

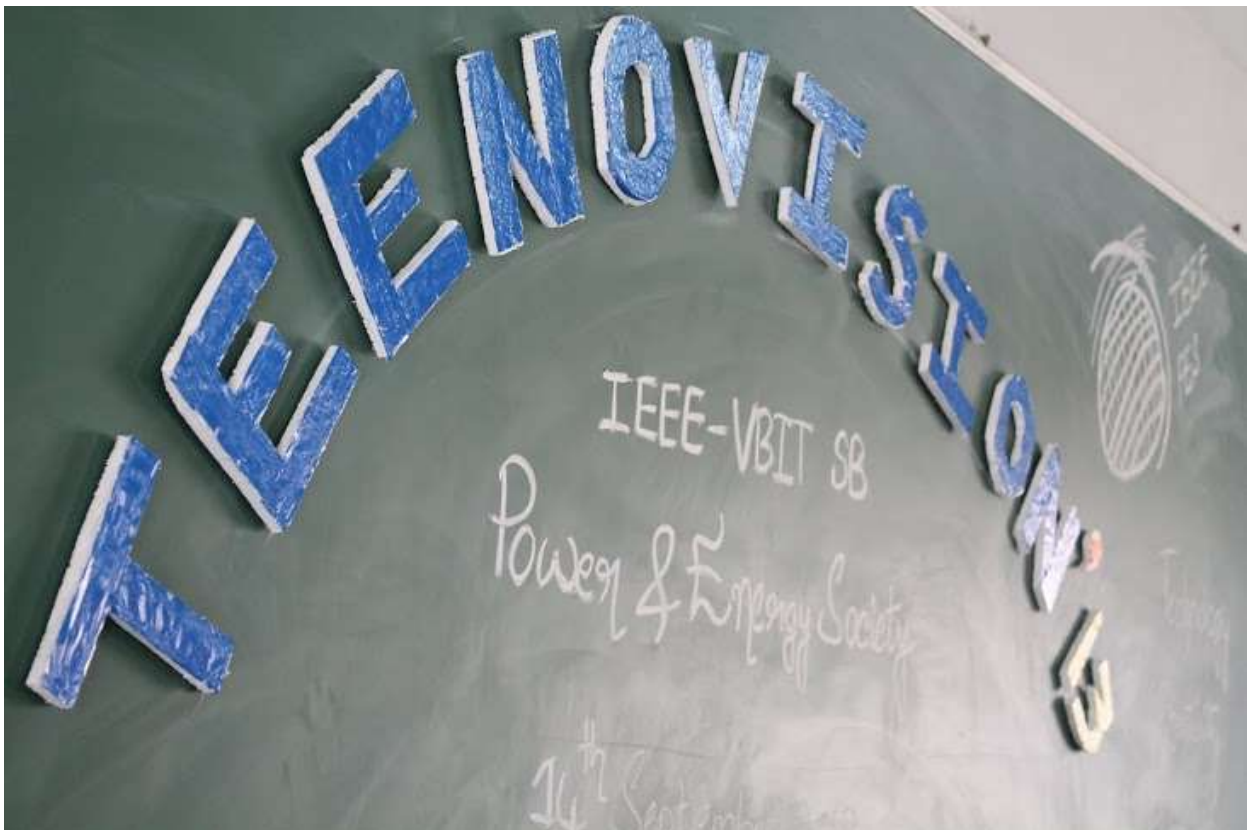

Each participants are given with different kinds of scrap materials and asked to make a prototype using the scrap .The prototype reflects their idea which they want to apply for the betterment of the mankind, it also improves their technical and imaginary skills.

Session was started with the introduction of the team later randomly all the 40 participants are made into 20 batches and for each batch two members , then all the instructions and guide lines are given to them . and given the time limit is o one hour ,then scrap material was distributed among them, and competition was about 14:40-15:40 hrs .

All the participants are ready with their prototypes judging panel judged all the participants

And awarded with the marks ,prices distribution was down by our college chairman and principal

GOAL: The main objective of this event is to bring out innovative ideas out of the students .
