ABOUT INSTITUTE:

Founded in 2004 on a sprawling 15 acres of land, the campus has state-of-the-art teaching facilities to train students in emerging technologies. The college is located about 18 km from Uppal Cross Roads on the Warangal Highway.

VignanaBharathi Institute of Technology emerged as a hub for engineering excellence. “Outstanding” is what our students rate our efforts in nurturing versatile leadership. In VBIT, our faculty members go beyond teaching and they redefine excellence.

VBIT is the place where opportunities are provided for students to realize their ambitions where new ideas are born, where innovative projects materialize and where students excel in learning.

ABOUT MECHANICAL MEPARTMENT:

The Department of Mechanical Engineering is headed by a qualified and highly experienced Professor supported by specialists besides qualified and long experienced faculty which is established in 2009. The department functions with the prime goal of imparting sound and proper mix of theory and practical knowledge in the fundamentals added by recent technological developments in mechanical engineering and allied disciplines. Students, on completion of the course, get good opportunities in Industries, Software and IT Sectors.

The Institute promotes research and development activities, providing consultancy services to the industries and encourages higher education programs;the department regularly organizes technical workshops for the faculty members to expose them to emerging areas.The department has the state of the art facilities for various laboratories, classrooms to support e-learning. The Department has the latest CAD/CAM software, where the students can enhance their knowledge to meet the global requirements.

ABOUT THE FDP:

Engineering drawing is the graphical representation of physical objects and their relationship. The ability to read drawing is the most important requirement of all technical people in engineering profession.

The faculty attending this programme will benefit by learning efficient teaching methods on this subject and thus improving to teach the fundamentals of the subject to the students more confidently.

The objectives of conducting this programme are:

- To improve the teaching skill of the faculty members; so they can help students understand this subject easily.
- Knowing the teaching methodology to complete the syllabus well in time.
- To understand the practices to be inculcated among students.
- Helps to improve the knowledge of the Faculties and Students in Machine Drawing and Production Drawings
- Certification for Participants by VBIT.
