Stressed out ???	3
Hey Juniors !!!	4
Brain Stuck	5
All About you!!!	6
For The Students by The Students	7
Break the CAT Myth	8
Student Chapters Updates	10

Hey there..!!

First of all, a very warm welcome to all you freshers. We present you another issue of our college's newsletter. A new issue, a new effort. In this issue we have included a few articles to help you freshers overcome the few hurdles you may face in the beginning. We have tried to make our newsletter tad more interactive. Bouquets or Brickbats- you can mail us to the StuTalk id or the respective Author's Email Id.

We here at StuTalk invite all articles from you students. Help us improve your newsletter by sending us more and more articles and your feedback.

We will be awaiting your response.

- Editorial Board

SENIORS SPEAK

What are the 7 secrets of success?

I found the answers in my room.

1. Roof said: Aim high.
2. Fan said: Be cool.
3. Clock said: Every minute is precious.
4. Mirror said: Reflect before you act.
5. Window said: See the world.
6. Calendar said: Be up-to-date.
7. Door said: Push hard to achieve ur goals.

"source :internet"

The never ending holidays have finally ended and the most memorable stage of your lives is here at last!

"Dream hard but, don't let your dream possess you" .Most of you rather, all of you may have already created an illusion about the engineering college's life. I think it's high time to wake you all up from your dream world. Time to clarify a few ground realities. The B.Tech college life is nothing even remotely related to what you see in "Happy Days" where the students can do everything.

Your daily curriculum comprises of 7 long punishing and tedious periods that you have to endure. So brace yourselves for this. No kidding. Already thinking "Too much bhai" and "Abba nijanga na"..? Well..! This is just a hint of the phantom. You will be given many assignments (All of which carry marks. Obviously..!) and very little time to complete them. If you have already planned with your friends to bunk college and watch all movies "First day First Show" then chillax..!! You have to maintain a minimum attendance of 75% else you will be detained. If you are thinking "Anta scene ledu" let me clarify that many of your seniors have been detained due to the same reason.

Don't get scared. B.Tech has a lot of fun in it too. One can experience real glee during the interim, provided, you maintain a real cool "GANG"!! Once you have made friends, there is no end to the amount of fun you will have, and before you even realize you will reach final yr. And by the time you digest the fact that you are in final yr, your B.Tech will finish..!!!

That is Engg life. Have fun..!!!

K.Gayatri (II-IT)

This page is exclusively for those students who have made VBIT proud in various aspects by their deeds either within the college or representing our college else where. In this issue we would like to acknowledge the efforts put in by the following VBITians

First of all we applaud the cricket team that won the NAIPUYNA cup (cricket) organized by ABVP

It is quite interesting to note that Swarnadip who dislocated his finger in one of the league match's, played a vital role in the team's win in the Quarter final match by scoring 10 runs including a 4 and a 6!!! In the final over, when the team needed 11 runs to win

Cptn- Tejo Ganesh	Shylesh Muthu
V.C-G. RamChander	Ajay
U.S.N Murthy	Chetan
Vishal	Nagaraj
Swarnadip	Gowtham raj
Mohan	Teja
Srikanth Verma	Vinay
Sandeep	Janaki

Equally applaudable are the volleyball team which won the NAIPUYNA cup (Volley ball) organized by ABVP

VBIT dominated the tournament from the word "Go", they went on to win the cup after a dramatic rebirth in the semis

Cptn-M.Srujan	Srinivas
B.Raghu Kumar	Janardhan
Uday	Naresh
Gowtham	Naveen
Praneeth	Vijay
Ashirwad	Raju
Raghunath	

It is a matter of pride that Tejo Ganesh of III -ECE is playing state under-22 cricket matches representing Hyderabad

V.Vamshi Krishna (Alumni) has secured first prize in All India Project exhibition held during the IEEE student congress held in august.

Chaitanya kumar.S from III -IT is being nominated for the post of GINI CHAIR IEEE-HYD SEC for a term of one year.

R.Sharath of III-C..S.E. has Secured 1st position in a paper presentation event called ILLUMINATI organized by St.Marrys

K.Preeti Sowjanya and S.N.Sukeerthi won 1st prize (C.S.E. Dept.) in paper presentation at ILLUMINATI St.mary's college of

S.N.Sukeerthi won Second prize in paper presentation at PRATIBHA 08 organized by TKR College of Engg.

Is everyone as Stressed Out as I am?

Before I start let me introduce myself to you. I Am M.K. Arjun studying 4th year B. Tech and this article is mainly for 1st year studentsAnd is been dedicated to them from my group "slaughters" (don't mind about the name)

It's that time of year. You walk around campus and you think, "no one is as swamped as I am; no one is as lazy as I am; no one procrastinates more than I do." Well, I'll let you in on a little secret. You're not alone. Deep down inside you know it's true -- we're all students in the same boat with the same stressors. On top of the challenges all of us have to deal with (relationships of all kinds right) students have a whole smorgasbord of their own like classes, midterms, due dates for semester fees, projects from hell (somebody help me plzz), lab write-ups and assignments coming out of our, um, ears. It never ends.

There are lots of ways to de-stress, and the bottom line on all of them is "Take care of yourself":

- Eat a balanced diet and don't skip meals (Cant help about college canteen).
- Get enough sleep (Not during classes)
- Get some moderate exercise; preferably outside in nature (wanna have a fight)
- Take time to laugh and talk with friends.
- Cry if you need the release. (Indian Idol 4 or any of Ekta Kapoor serials.)
- Listen to music (I said music not HiM-esh-usic).
- Get some healthy touch—(Books will do it).
- Learn and practice some relaxation or meditation techniques.

(There are lots out there like the one u can find in TV ... SADHU's, BABA'S)

- Find a way of managing your time that works for you, set priorities and write things down!
- Play a few computer games. (Yes, a few. Playing too many will just eat up time and make things worse. What about Counter strike!!!!).
- Eliminate unnecessary stresses like last-minute anxiety, unhealthy relationships, and over commitment (Ahem!!! do I need to give any example for that).

We all have a lot to deal with, as students. Perhaps what's most important is to remember that it's not the events themselves that are stressful but our perception of them and what we do about them.

The most happening hangout IN VBIT is the Rest room with its door note "ONLY GIRLS". Wherein SILLIEST & CRAZIEST gossips of the college are discussed in an "ON TABLE CONFERENCE" way. Boys CHILL gear up yourself and send us all your popular hangouts in AND "AROUND" ;-) the campus to stutalk.editor@gmail.co

ARJUN And slaughters

HEY JUNIORS!!!

A hearty welcome to all the fresher's....or more appropriately "Juniors". This is the place you all people have been waiting to come to, after all the hard work you did in your Intermediate. Well.. all you juniors out are probably on "Cloud 9" and excited about your new college life. Along with all this excitement that has filled your heart and mind; somewhere in one corner of your head is a tinge of fear about "seniors" and "ragging".

Now, here are a few tweaks that would come handy if your seniors happen to call you.

1. The first thing you do whenever a senior calls you or you look at them is wish them and give them the due respect that they expect from you. Always refer to them either as "Sir" or "Mam".
2. Dress code: This is a very important aspect that all you juniors should take care of. Never overdress yourself or try and look "funky" as this would catch your seniors' eye and give them a reason to get hold of you. Solution: Stay simple as the seniors tend to stay away from simple people.
3. Never try to act smart (even if you "think" you are smart) in front of your seniors.
4. Don't carry lots of cash, coz if a senior finds out about it, they will very sweetly take you to the canteen and as you (or make you) give them a treat.
5. Attitude: Never ever display the "I don't care" attitude to your seniors. Because, they will make sure that "You Care"
6. Whenever a senior calls you don't try to run away or pay a blind eye to them, as this would get their temperature soaring. Just approach and respond to them appropriately.
7. If the senior who gets hold of you isn't ready to leave you even after quite some time, don't get irritated and lose your temper, Stay calm and just say you have a class or you need to go as the buses are leaving and will meet them tomorrow again. (Trust me, they won't remember your face once you leave.)
8. Always move around in groups as even if the senior calls, you go as a group and you will feel more comfortable.
9. Never be rude or sound loud to your senior as this could get you into lots of trouble.
10. Lastly, never panic when a senior approaches you just be confident and face them, after all seniors are too human beings.

The above tips only are a few ones but it ultimately depends on you and your behavior with seniors that will help you to strike a chord between them. Remember one thing seniors play a very important role in your college life as they guide throughout your stay in the college. Seniors just try to interact with you juniors just to break the ice; this is often misunderstood as ragging. Remember, they are just extending their arms of friendship to all you juniors.

Happy Engg...!!!

So wishing you all the best for your four year stint in this college.

S. KARTHIK (II-CSE-B)

SHOUT BOX

Hey friends, here this time we are introducing a new column in stuTalk.

A topic is given every month, mail us your comments in not more than 50 words to stutalk.editor@gmail.com

The best three comments would be published in the next issue.

The topic for this issue is:

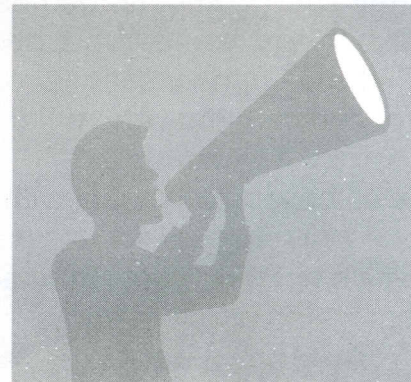

"Seniors can't Rag saala" - junior says.

This is regarding the attitude of the juniors who think that seniors who are being calm with the caution of the Disciplinary committee can't "Interact" properly!!!

Send us your comments in the following format :

Name:

Comments: (Only in about 50 words)

BRAIN Stuck

>>,[>>] <<[[-<+<] >[>]>]<[.-]<[>+<<-]>>]>><<]

Would one ever think that the above code would sort a string of any length alphabetically?

Yes!! It's possible in Brain Stuck. People try mastering languages with over hundreds of commands. Experts advise to go from a basic language to a higher one, we generally start learning programming with 'C'. Just think if you could start programming with a language with **eight commands**. Programming under limited command platform gives you lot of programming pain but when you step into a more volatile language you would be in a more comfortable stage to meet your requirements in that language. Though Brain Stuck has limited applications, by learning it one can enhance his programming skills and perceptive thinking. It is of real use to armature programmers.

A gist of the language:

Urban Muller created brain Stuck in 1993 with the intention of designing a language which could be implemented with the smallest possible compiler. As the name suggests, Brain Stuck programs tend to be difficult to comprehend. Partly this is because any mildly complex task requires a long sequence of commands; partly it is because the program's text gives no direct indications of the program's state. Nonetheless, like any Turing-complete language, Brain Stuck is theoretically capable of computing any computable function or simulating any other computational model, if given an unlimited memory store. The Brain Stuck machine uses a simple machine. It has an array of 30,000 byte cells initialized to zero. A movable pointer points to the leftmost byte of the array initially; the user can use the following commands. Brain Stuck programs can be translated into C using the following substitutions, assuming 'ptr' is of type unsigned char* and has been initialized to point to an array of zeroed bytes.

Brain Stuck compiler links:

<http://justice.loyola.edu/~mcoffey/pr/5ki.html>

<http://koti.mbnet.fi/villes/php/bf.php>

command	Meaning	'C' Equivalent
>	Increment the pointer	++ptr;
<	Decrement the pointer	--ptr;
+	Increment the byte at pointer	++(*ptr);
-	Decrement the byte at pointer	--(*ptr);
,	Reads a single character and stores the equivalent ASCII value at the pointer.	putchar(*ptr);
.	Prints the equivalent ASCII character of the byte at the pointer	*ptr=getchar();
[Jump forward to the command after the corresponding ']' if the byte at the pointer is zero.	while (*ptr) {
]	jump back to the command after the corresponding '[' if the byte at the pointer is nonzero.	}

Friends, do you have any **queries to the placement officer** of our college? Any tips or any doubts regarding the placements you need, email us; we shall take your word to him.

All you have to do is send them in the format below,

Name:

Your question:

Send all these details to our Email Id: stutalk.editor@gmail.com and please make sure to mention the subject as **Placement Queries**.

All About YOU

LIBRA [SEPT 24 – OCT 23]

Polar or Opposite Sign: Aries

Libra as a Man: You have a bit of a roving eye, especially during youth. You fail to draw the line between friendship and love. You love being around a small group of people. You sparkle and make intelligent conversation, but when the group is over a dozen, you run for cover. For you, romance is an exhilarating experience. While all this sounds very rosy, you do a double take when it comes to a permanent relationship. You like to be in love, but do not take the initiative to take the relationship forward.

Libra as a Woman: You are blessed with a clear Libra wit. You also revel in debate and argument. Partnerships, in both business and romance, constitute your deepest need. You are happiest when living with another person, but treading on toes is not quite your style. Being a woman is sort of a lifetime occupation to you. One of your womanly talents is that of talking, and you use it to perfection.

One must know the rules when dealing with a Libra:

Make sure there is harmony in the relationship always. The Libra hates it when the apple cart is upset.

The Libra has a great interest in the arts, and will expect you to keep up, too!

Tuck away little gifts for your Libra. They love surprises.

Don't ever mention that the your special someone looks ill. The Libra likes to remain in robust health all the time.

SCORPIO [OCT 24 – NOV 22]

Polar or Opposite Sign: Taurus

Scorpio as a Man: You need emotional excess to survive. You thrive on a need to be loved and approved. In a word, you are invincible. You love mysteries, and solving the puzzle of love is an irresistible challenge. Marriage gives you a certain security, but you will want to get out of it before it actually happens. In a relationship with perfect understanding, you will be tender, sympathetic and considerate. You will repay your woman's loyalty with the kind of love most women only read about and wish for.

Scorpio as a Woman: You are magnetic, proud and totally confident. You are a strong woman, and hate to flutter your eyelashes and look pretty. You look for ambition in a man, and you cannot excuse his weakness. You hate being possessed. You are also very stubborn. You refuse to see any viewpoint but your own when emotions are involved.

One must know the rules while dealing with Scorpio:

Dress up and look good for the Scorpio. The Scorpion appreciates beauty and sex appeal.

Have a no-holds-barred approach. The Scorpio will delve into your secrets, anyway.

Don't hold on. A relationship with the Scorpio is an exciting journey of discovery, so go along!

Share everything with your Scorpio. This will make for a highly fulfilling relationship.

Don't ever accuse the Scorpio of playing with your emotions. The Scorpio promise of fidelity is as good as gold.

You need to take lessons in handling your emotions with a Scorpio. Try not to contribute to the emotional fireworks in the relationship.

Don't have a narrow mind. With the Scorpio, you must be prepared for anything.

Don't ever keep secrets from the Scorpio.

WANT TO BECOME A WRITER

Terms & conditions:

Should be a spontaneous writer on any topic given to you.

Should be able to make every tragic event a humorous one with your "creati-witty".

GRE 1400 not required

But, at least should have a good sense of placing right words at right place.

They must follow the Indian punctuality in submitting the articles at least one day post the submission day. (At Least)

Strictly punctual students pinches the curriculum of stutalkers, still have a hearty invitation. :D

We are sad that the experts of "college gossips & issues" are burying their talents. Friends, here's your stage "print" ;-)) your write-ups with an anonymous tag, by contributing them to us.

The techno freaks and geeks who always failed to get their articles published in "THE HINDU, THE TIMES OF INDIA" can be a "sci- tech" columnist of "STUTALK". :D

People who solve 101 puzzles for "PETTY PRIZES": -P in leading newspapers and radios can be a solver of "reader's column" of stutalk.

The student branches of VBIT please do consider stutalk as the best place for your **event announcements & associations publicity.**

If you hereby agree ANY of (or all: D) the above **terms & conditions** then contact / email us stutalk.editor@gmail.com

NAUGHTY BUT ADORABLE

We are naughty, intelligent and smart, once you meet us, we will steal your heart.

Firstly the C.R of our class

Who's undoubtedly the great Shraavan JI.

Pratyusha, Shanti-and Vaishali don't talk at all,

While Padmini is the most talkative of all.

Kiran and Arun come to class once in a blue moon,

And Papaiyah surely would become a scientist soon.

Mukesh is always in search of leadership,

While we wonder, Abhilash and Santosh's relationship.

Ramakrishna's Sardarji jokes are irresistible,

Swaroop and Pavan are pals inseparable.

Sindhuri is always buried in books,

While Pallavi.G has the most innocent looks.

Srividhya, the R.J of our class,

While Nandini, the beautiful lass.

Vinod of our class Has not talked to many girls so far,

And srinivas never involves in any war.

Manohar is a good looking lad,

While Shiva is always glad.

Nagireddy is very docile,

While Rahul's crazy jokes can make you smile.

Pradeep is the pulsar guy,

While Abhishek and Sreekanth are silent killers

Still hidden from the teacher's eye.

Pallavi may be silent in the class,

But out, she is also.....'Mass'.

Sushma and Saraswathi are friends since schooling,

While Kanvitha reddy always is smiling.

Naresh, Ranjith and Anudeep are 'Mahaan'

Teacher's advices never reach their 'Kaan'

Anand, Varun and shashi like palying volleyball,

While Saidarao is the most studios of all.

Santosh is the late latif of our class,

Who never comes before 10'clock.

Balraj comments softly not to be heard,

Lakhan and Chandu are chirpy like a bird.

Srawan has both beauty and brain,

We try to make Shiva talkative but all in vain.

Chandrika, Bhagyasree and Anitha's silence Is unbreak-able,

But this is what makes them likeable.

AND HERE'S A LOOK TO THE GREAT BACKBENCH-ERS OF OUR CLASS.

Madhuri, Harika and Shruti are the talented

Backbenchers among girls,

While Sudhir and Vamshi say "we don't like liking to girls"

Shivaramkrishna tall as tower,

Thinks that music is his power.

Pramod, Mohan and Sandeep love playing cricket,

Joy knows no bounds when they get a wicket.

Bhavaniprasad chitti, sugar, toffee, and bandages,

All good things come in small packages.

Praveen is the only one left out,

He is one whom there's nothing to tell about.

Somewhat different, somewhat same,

But we really live up to our name.

The strands of our lives are so miasmic ally spun,

And all of this was last years joy, now-a-days

no-body has time for others.

By 2nd B.tech...I.T (B)

This is what we call Creativity at its best. IT B You rock. You have something that is as creative or even better than this, then what are you waiting for just email us to stutalk.editor@gmail.com and have your piece of art published.

A space solely for B.Tech junta entails the following columns

- JNTU previous year question papers
- Tips for Interviews, GD's etc
- Puzzles, tricks, Quiz etc
- Technical and cultural fest updates
- Placement papers
- Resume and CV tips
- JNTU online bits
- Seminars and paper presentation help-desk

Also embraces all the B.Tech related information besides mentioned above in the guise of forums.

The website also abides you by its attractive features like

Create your page and profile space, Various Themes for your profile, A social network for B.tech

Students, Create your own community, Attractive and useful forums, Chat.

Breaking The CAT Myth

We hear students saying there are these many B-schools or in some cases I want to go to this B-School or IIM but have you ever thought which specification you're going to opt in MBA, yeah never thought of it ryt !!! So there you go STUTALK has taken the pain of collecting the information about what Specification you can choose basing your interest, though this is not a static list and new courses are added every year we have listed the most prominent of them.

It is of prime importance to select the right field of management to specialize in, as normally this would be the discipline in which you would get your first job and possibly even make a career.

The first step towards this is to understand what each specialization is about and what do they have to offer. Following are the categories

Marketing - At the Front End of Business

Look forward to a career in sales, brand management, or market research. You need to possess excellent communication and resource mobilizing skills. Marketing plays a key role in the industries such as fast moving consumer goods (FMCG), advertising and market research, sales & distribution, and product or brand management. A large number of CEOs often belong to this discipline.

Operations Management - Driving Back-End Efficiency

If you exhibit an eye for detail, the ability to negotiate, can keep your calm in tough situations and have sound technical knowledge, manufacturing, sales and distribution companies are likely to knock on your doors. Operations play a key role in the fields of quality control, material management, productivity improvement, inventory control, production planning, supply chain management and logistics.

Finance - It's All About the Money

This field requires extremely high analytical ability, playing with numbers and balance sheets and needs an individual to be fond of being at the complete back-end. With a specialization in Finance you can look for exciting careers in banks, financial consultancies, or financial institutions. Finance plays a key role in the fields of consumer and investment banking, institutional finance, merchant banking, corporate finance and international finance.

Systems Management - Making Technology Work

Involves custom-development of IT solutions in all areas, from putting up online daily sales to developing Enterprise Resource Planning (ERP) solutions. Systems Management is normally an integration role between client (internal/external) and programmers; and generally requires people with good technical skills coupled with good business domain knowledge. Systems play an important role in the fields of systems consultancy, account management/project management, systems department of organizations, business development and sales & marketing.

Human Resource Management - A People Manager

You focus on people management and form the backbone of any organization. You need to be a good communicator and should present yourself as competent, dependable and charismatic. It plays a key role in the fields of human resource development, personnel management and industrial relations.

Well you have known a lot about the specializations, now let's try solving few puzzles starting with the Sudoku and then few aptitude questions to go with it!!!

	6		3	2			
	9	7					6
			4		3	7	
	5	2					8
	9	8		1		6	3
	6			8	9		
	8	2		5			
	4			9	1		
			4	6		8	

TEST YOUR QUANT ABILITY

1. Arun, Barun and Kiranmala start from the same place and travel in the same direction at speeds of 30, 40 and 60 km per hour respectively. Barun starts two hours after Arun. If Barun and Kiranmala overtake Arun at the same instant, how many hours after Arun did Kiranmala start?

- 1) 3 2) 3.5 3) 4. 4) 4.5 5) 5

2. A function $f(x)$ satisfies $f(1) = 3600$, and $f(1) + f(2) + \dots + f(n) = n^2 f(n)$, for all positive integers $n > 1$. What is the value of $f(9)$?

- 1) 80 2) 240 3) 200 4) 100 5) 120

3. Which among $2^{1/2}$, $3^{1/3}$, $4^{1/4}$, $6^{1/6}$ and $12^{1/12}$ is the largest?

- 1) $2^{1/2}$ 2) $3^{1/3}$ 3) $4^{1/4}$ 4) $6^{1/6}$ 5) $12^{1/12}$

4. If $a/b = 1/3$, $b/c = 2$, $c/d = 1/2$, $d/e = 3$ and $e/f = 1/4$, then what is the value of abc/def ?

- 1) $3/8$ 2) $27/8$ 3) $3/4$ 4) $27/4$ 5) $1/4$

5. The length, breadth and height of a room are in the ratio 3:2:1. If the breadth and height are halved while the length is doubled, then the total area of the four walls of the room will remain the same

- 1) decrease by 13.64% 2) decrease by 15%
3) decrease by 18.75% 4) decrease by 30%

6. The sum of four consecutive two-digit odd numbers, when divided by 10, becomes a perfect square. Which of the following can possibly be one of these four numbers?

- 1) 21 2) 25 3) 41 4) 67 5) 73
2)

7. Suppose you have a currency, named Miso, in three denominations: 1 Miso, 10 Misos and 50 Misos. In how many ways can you pay a bill of 107 Misos?

- 1) 17 2) 16 3) 18 4) 15 5) 19

8. If $x = -0.5$, then which of the following has the smallest value?

- 1) $2^{1/x}$ 2) $1/x$ 3) $1/x^2$ 4) 2^x 5) $1/\sqrt{-x}$

9. A group of 630 children is arranged in rows for a group photograph session. Each row contains three fewer children than the row in front of it. What number of rows is not possible?

- 1) 3 2) 4 3) 5 4) 6 5) 7

10. For general n , how many enemies will each member of 5 have?

- 1) $n-3$ 2) $\frac{1}{2}(n^2 - 3n - 2)$ 3) $2n - 7$ 4) $\frac{1}{2}(n^2 - 5n + 6)$
5) $\frac{1}{2}(n^2 - 7n - 14)$

1) 3 2) 2 3) 1 4) 3 5) 4 6) 5 7) 3 8) 2 9) 4 10) 4

Student- Chapters @ VBIT!!!

IEEE

IEEE-VBIT organized a two day workshop on Linux held on 26 & 27 September which was attended by more than 150 members.

IEEE has set up a WIE(Women in Engg) Affinity Group under the IEEE-VBIT student branch .

IEEE-VBIT is in the race for the best student branch award in Hyderabad section (already declared a very active student branch).

IEEE-VBIT is actively participating in GINI initiatives taken up by Hyderabad section with Murali , Chaitnaya and Chanakya being a part of the recently concluded GINI meeting.

Picture of all the organizers shot after the event

IEEE-VBIT SB would soon be hosting its own website.

The Upcoming events in IEEE which our SB is directly or indirectly involved are as follows :

1. A women congress at NIT Warangal on 25-26th of October 2008.
2. A TENCON-2008 -at Hyderabad Central University on November 18-21,2008.
3. Congress is been planned on 13-14th of December 2008
4. Zonal Congress is been planned on 1,2-3 of January 2008

Membership will be open every shortly, interested students can contact Chaitanya III-IT

IETE

IETE @ VBIT.

IETE students forum was established in VBIT on 02-04-08 and it has been conducting weekly activities in our college campus since 26th' july 2008 upto the latest 21st' Aug 2008. There are 103 students from all the branches who have joined in IETE students' forum VBIT.

IETE updates @ VBIT.

We have organized weekly activities for consequent 5 weeks and the response from the students has been overwhelming. There were many events that were conducted in the span of 5 weeks.

Week-1.....26-07-08	1) Presentations and seminars 2) JAM session
Week-2.....02-08-08	1) Screening test for Quiz participants 2) Technical and Genral Quiz
Week-3.....07-08-08	1) Apptitude and Technical test Round-1 2) Apptitude and Technical test Round-2
Week-4.....14-08-08	1) Technical Paper Presentations
Week-5.....21-08-08	1) Verbal Reasoning Test 2) Debate

How and When to join?

Fresh memberships are open to everyone (students of all branches) and for further details contact:
Mahathi 3 /4 ECE, Kalyan 3 /4 ECE, Bindu 3 /4 IT, Rajyalaxmi 3 /4 IT.
