### WORLD DEVELOPMENT INFORMATION DAY

IN 1972, THE UNITED NATIONS GENERAL ASSEMBLY DECIDED TO INSTITUTE A WORLD DEVELOPMENT INFORMATION DAY, COINCIDING WITH UNITED NATIONS DAY ON 24 OCTOBER WITH THE OBJECT OF DRAWING THE ATTENTION OF WORLD PUBLIC OPINION EACH YEAR TO DEVELOPMENT PROBLEMS AND THE NECESSITY OF STRENGTHENING INTERNATIONAL CO-OPERATION TO SOLVE THEM.

ON MAY 17, 1972, THE UN CONFERENCE ON TRADE AND DEVELOPMENT PROPOSED MEASURES FOR THE INFORMATION DISSEMINATION AND THE MOBILIZATION OF PUBLIC OPINION RELATIVE TO TRADE AND DEVELOPMENT PROBLEMS. THESE BECAME KNOWN AS RESOLUTION 3038 (XXVIII), WHICH WAS PASSED BY THE UN GENERAL ASSEMBLY ON DECEMBER 19, 1972. THIS RESOLUTION CALLED FOR INTRODUCING WORLD DEVELOPMENT INFORMATION DAY TO HELP DRAW THE ATTENTION OF PEOPLE WORLD-WIDE TO DEVELOPMENT PROBLEMS. A FURTHER AIM OF THE EVENT IS TO EXPLAIN TO THE GENERAL PUBLIC WHY IT IS NECESSARY TO STRENGTHEN INTERNATIONAL COOPERATION TO FIND WAYS TO SOLVE THESE PROBLEMS. THE ASSEMBLY ALSO DECIDED THAT THE DAY SHOULD COINCIDE WITH UNITED NATIONS DAY TO STRESS THE CENTRAL ROLE OF DEVELOPMENT IN THE UN'S WORK. WORLD DEVELOPMENT INFORMATION DAY WAS FIRST HELD ON OCTOBER 24, 1973, AND HAS BEEN HELD ON THIS DATE EACH YEAR SINCE THEN. IN RECENT YEARS, MANY

EVENTS HAVE INTERPRETED THE TITLE OF THE DAY SLIGHTLY DIFFERENTLY. THESE HAVE CONCENTRATED ON THE ROLE THAT MODERN INFORMATION TECHNOLOGIES, SUCH AS

VISION AS WELL AS POSTERS IN PUBLIC PLACES.

IN SOUTH AFRICA, INDABAS (GATHERINGS OF COMMUNITY REPRESENTATIVES WITH EXPERTISE IN A PARTICULAR AREA) ARE OFTEN HELD. REPRESENTATIVES OF LOCAL, NATIONAL AND INTERNATIONAL BODIES ARE INVITED TO SHARE, DISCUSS AND CONSOLIDATE THEIR IDEAS AROUND A PARTICULAR DEVELOPMENT ISSUE OF LOCAL OR NATIONAL IMPORTANCE.

EMBLEM OF THE UNITED NATIONS

INTERNET AND MOBILE TELEPHONES CAN PLAY IN ALERTING PEOPLE AND FINDING SOLUTIONS TO PROBLEMS OF TRADE AND DEVELOPMENT. ONE OF THE SPECIFIC AIMS OF WORLD DEVELOPMENT INFORMATION DAY WAS TO INFORM AND MOTIVATE YOUNG PEOPLE AND THIS CHANGE MAY HELP TO FURTHER THIS AIM.

MANY EVENTS ARE ORGANIZED TO FOCUS ATTENTION ON THE WORK THAT THE UN DOES, PARTICULARLY WITH REGARD TO PROBLEMS OF TRADE AND DEVELOPMENT. MANY OF THESE ARE AIMED AT JOURNALISTS WORKING FOR A RANGE OF MEDIA, INCLUDING TELEVISION, RADIO, NEWSPAPERS, MAGAZINES AND INTERNET SITES. DIRECT CAMPAIGNS MAY ALSO BE ORGANIZED IN SOME AREAS. THESE MAY USE ADVERTISEMENTS IN NEWSPAPERS AND ON RADIO AND TELE-

REVOLUTIONISE YOUR STEPS TOWARDS SAVING OUR WORLD

A NICE ARTICLE ABOUT LOVE BY  
VIVEKANANDA

I once had a friend who grew to be very close to me. Once when we were sitting at the edge of a swimming pool, she filled the palm of her hand with some water and held it before me, and said this: "You see this water carefully contained on my hand? It symbolizes Love." This was how I saw it: As long as you keep your hand caringly open and allow it to remain there, it will always be there. However, if you attempt to close your fingers round it and try to possess it, it will spill through the first cracks it finds. This is the greatest mistake that people do when they meet love ... They try to possess it, they demand, they expect ... and just like the water spilling out of your hand, love will retrieve from you. For love is meant to be free, you can not change its nature.

If there are people you love, allow them to be free beings. Give and don't expect. Advise, but don't order. Ask, but never demand

It might sound simple, but it is a lesson that may take a lifetime to truly practice. It is the secret to true love. To truly practice it, you must sincerely feel no expectations from those who you love, and yet an unconditional caring."

Passing thought .... Life is not measured by the number of breaths we take; But by the moments that take our breath away.

Why is it called love ??????

Why does it hurt?  
Was it wrong to love?  
Was it a crime to be loved?  
Then, why does it tear me apart?  
This one enigma leaves me befuddled.  
As the answer lies in one's heart.  
Pain is what you receive,  
silence is what you hear.  
Loneliness makes you grieve,  
happiness is your foe.  
Then why do we call it love?  
cause' all I see is tears being shed,  
and blood being bled.  
Do you call this love?

As far as love goes,  
it contradicts itself in virtual reality!!!  
'Everything's fair in love and war',  
goes the famous saying.  
It should be rephrased,  
'Everything in love IS WAR'.  
And trust me you wouldn't walk out  
live....  
Love is a war,  
and victory is inevitable,  
for those who apply the right tactics  
and wise strategies.  
True love is never gone in waste,  
and hard work is never left unre-

warded.  
Love is not a child's play,  
but a gamble of two hearts,  
Are you still wondering,  
why do we still call it love???  
Read between the lines people,  
'ONE MAY LAMENT,  
ONE MAY BLEED,  
FOR HE MAY NEVER KNOW,  
THE BLESSING HE RE-  
CEIVED.....'

G.Chandranth [2ND CSE-A]

## A mountain story

"A son and his father were walking on the mountainS...

Suddenly, his son falls, hurts himself and screams:

"AAAhhhhhhhhhhhh !!"

To his surprise, he hears the voice repeating, somewhere in the mountain:

"AAAhhhhhhhhhhhh !!"

Curious, he yells: "Who are you?"

He receives the answer: "Who are you?"

And then he screams to the mountain: "I admire you!"

The voice answers: "I admire you!"

Angered at the response, he screams: "Coward!"

He receives the answer: "Coward!"

He looks to his father and asks: "What's going on?"

The father smiles and says: "My son, pay attention."

Again the man screams: "You are a champion!"

The voice answers: "You are a champion!"

The boy is surprised, but does not understand Then the father explains:

"People call this ECHO, but really this is LIFE.

It gives you back everything you say or do.

Our life is simply a reflection of our actions.

If you want more love in the world, create more love in your heart.

If you want more competence in your team, improve your competence.

This relationship applies to everything, in all aspects of life;

Life will give you back everything you have given to it.

**"YOUR LIFE IS NOT A COINCIDENCE. IT'S A REFLECTION OF YOU!"**

## The Game Is Over

A young boy enters a barber shop and the barber whispers to his Customer,

'This is the dumbest kid in the world. Watch while I prove it to you.'

The barber puts a five rupee coin in one hand and two one rupee coins ( $1+1=2$ ) in the other, then calls the boy over and asks, 'Which do you want, son?'

The boy takes the two one rupee coins and leaves. 'What did I tell you?' said the barber. 'That kid never earns!'

Later, when the customer leaves, he sees the same young boy coming out of the ice cream store. 'Hey, son! May I ask you a question?'

'Why did you take two one rupee coins instead of five rupee coin?'

The boy licked his cone and replied, 'Because **THE DAY I TAKE THE FIVE RUPEE COIN, THE GAME IS OVER**'

*Moral: When you think the other person is dumb, you are making a fool of yourself.*

## 16 Steps to develop a good personality:

1. Have a personal aim in life.
2. Assessing personal skills + Interest as it is now.
3. Maintaining a learning log (or) diary of reactions to various life circumstances to analyse the experience
4. Develop personal plan to identify learning needs, based on the above experiences.
5. If required, take the help of an honest well wisher, to give constructive criticism and advice, for improvement.
6. Have a reading habit to update knowledge. Can depend on published articles.
7. Cultivate a habit of doing it immediately without procrastination.
8. Learn to like the things that need to be done.
9. Continually updating the skills and knowledge in the chosen field
10. Develop an attitude of gratitude.
11. Get into a continuous + conscious education programme
12. Stay away from negative influences
13. Start your day with a positive attitude
14. The above will build a positive self esteem
15. Maintain a health body and healthy mind.
16. Develop a positive approach to life situations.

## JOY OF LIFE

Happiness is that which everyone longs  
but so few of us actually get  
Happiness is that which rights all wrongs  
and leaves us without regret

Why then does happiness torture us so  
when all we want is to feel  
what happiness does in the lowest of low  
when everything just seems too real

Happiness comes to so many of you  
you who think it will always be there  
Happiness leaves you without the clue  
that living without is a nightmare

If happiness could be passed on  
would you then give it to me  
Will you then cry when it is gone.

*Determination is the key to the doorway of success*

## ACHIEVEMENTS

On the visit of  
Leonars Techno Services Pvt. Ltd, 27 students were short listed for placements from the passing and passed out batches of 2009 and 2010 on October 23rd 2009.

## Dare to Dream & Act

"Your living is only determined by what life bring to you, But by the attitude you bring to life"

People who get on in the world are the people who getup an look for the circumstances they want and if they cant find them, they make it, most of the time we suffer from the people who achieve great things of success are internally oriented and never blame for what they are.

If you wish to achieve something in life, discover your dream. your dreams empower you to change not just your life but other's too. "With a dream comes vision and insight into the future, with a dream comes the courage, fervor and zeal create newness". There is always a great distance between a dream and reality. What we seen in our minds and imaginations have to become real this requires effort, single mindedness, dedication and commitment. Dreams define your direction and let it be your light.

Added to your dream have the power belief in yourself. Life resents us with many situations where our belief in self is tested. Believe it or not every person is made infinitely intelligent and capable of achieving great heights of success. Constantly remind your mind that you can do it and you will. Success would be decided by this simple change in attitude; so to say your belief is your greatest weapon.

For a believer spirit of adventure is inevitable. Everyone amounted to progress was bold enough to take us to new things; exploring towards adventure. Being adventurous and in life starts from lighting fear and accepting newness and change. Facing all changes takes courage and determination. It is almost exhilarating and develops one's abilities. Always give space for mystery and will find your life to be exacting for someone, one bold step would change their life and others lives forever.

Doing something new brings out progress and meaning to one's life. To bring newness and change, one should be really educated. Formal education or degrees do not make a person truly educated. Degrees are of no guarantee for a strong character and moral courage. An educated person can appreciate beauty in all its glorious forms with out discrimination. He can accept truth with out being afraid of it. He can love people of all races, color and countries and they continue to learn. They manage their lives around principles and are never afraid of failures.

### Strength:

We are intelligent, but are we thoughtful?

Otherwise thoughtlessness becomes our highest handicap

Strength is life, weakness is death

### Concentration:

Compare the lowest with the highest man, the difference is in the degree of concentration.

### Leadership:

Always first learn to be a servant, and then you will be fit to be a master. Avoid this jealousy and selfishness; you will do great works that have yet to be done.

A politician thinks of the next election and  
a patriot thinks of the next generation -

### Barack Obama

Barack Hussein Obama II is the 44th and current President of the United States. He is the first African American to hold the office.

On October 9, 2009 the Nobel Committee announced that Obama had won the 2009 Nobel Peace Prize "for his extraordinary efforts to strengthen international diplomacy and cooperation between peoples. As specific examples of the work that led to the award, the Nobel Prize Committee highlighted his efforts to promote nuclear nonproliferation and the fostering of a "new climate" in international relations.

## How to become a good developer?

- 1. Attitude.** Most important thing is attitude. You have to understand that you are part of world that changes very fast and the only way to survive it is to study, study and study again.
- 2. Read the books.** There are many great books written guys who have long experience on the field. Also there are many great books written by industry leaders. Read the books you got and think hard about what you have read.
- 3. Code! Code! Code!** To get a good practice write as much code you need. Try to be each time more effective than before. Analyze the mistakes you made last time and try to find better ways how to solve these problems. This way you are improving your coding skills and also study many new things you didn't know before.
- 4. Try out new technologies.** To stay on the track you should know about things that happened today or that will happen tomorrow. Take a time to discover new technologies and study new theories.
- 5. Look how other guys develop systems.** Take a look at open-source project to see how other guys build their systems. Go through the code and try to understand why they decided to do things this way and not the other.
- 6. Everything that shines is not gold.** Although there are industry leaders and veterans and their opinions matter they are just human beings like you and me. And they make mistakes - just like you and me. Of course, they are genial source of information but always use your own brain to rate the information you got.
- 7. Everything that shines is not gold.** Although there are industry leaders and veterans and their opinions matter they are just human beings like you and me. And they make mistakes - just like you and me. Of course, they are genial source of information but always use your own brain to rate the information you got.
- 8. Participate in communities.** There are many communities for

Microsoft technologies. You can belong to any open community you like. Communicate with people, help them to solve their problems and ask help if you are in trouble. Also be a member of local technology communities

**9. Visit technology events.** If it is possible visit technical events. There are many regions where are local .Net groups (by example INETA etc) to organize events. Also try to visit events like TechEd and MIX. These events are valuable sources of information about new and coming technologies.

## Wake up Friends .. !!!!! Percentage is not the only criteria, Knowledge matters a lot!

*In life, it doesn't  
matter if you get  
knocked down, it's  
if you get back up  
that matters*

I am not here trying to make a DIFFERENCE to the education society but presenting to laugh at OUR own FATE.

The present Education system does not serve the purpose for which it has been started. Everyone comes across people either questioning them or question the following ... Hey what's your over all aggregate ?!

OMG its only 60 % ? ...now common you are no where fit to stand in this Competitive world and this is followed by leaving the person JOBLESS!

.... You got 80 % aggregate. Wow! Now the world is yours. Well that is the criterion, not the only going.

The above thing results in tension among the students who realise it late. There would be no other go except to have 80%, you being into all activities but are pushed out of the race because of your %.

The people who are really doing well with the extra curricular activities and good at them are worried of how would be their future because they have only 60 %. This is the case with the PRESENT DAY EDUCATION, the talent of a student by which one can achieve laurels in the field one is interested.

"Percentage is not the only criterion, Knowledge matters" No one really dares to say this in today's COMMERCIAL WORLD. The commercial education serves its name crowning the intelligent and dumping the slow learner. It's true that the end result matters but it's not true that the END RESULT IS ONLY THE MATTER.

60-70 % care damn to attend the classes including me only because when questioned we say we can of course study that from text book. Then what is the real purpose of college ? ...

A correspondence is 100 times better; to have a focus than to pay thousands of rupees in terms of college fees every semester.

The most pathetic thing is no matter how much you work sincerely for a particular extra curricular activity finally you are not in the crowned list of that activity because of low % or because you smile more. That makes a talented person to really think twice to contribute to that activity and hence finally the unworthy is chosen. Make a difference no matter in what its all in YOUR hands how the world turns to be !

Come out of the impression of rating the person's ability based on the marks, be bold enough to shout

" I AM GOOD AT \_\_\_ " , It need not be only the 80 % plus :)

## Events of the month

- ⊗ Dhyuthi, nss unit of vbit has donated an amount of Rs.25000/- and a collection of old clothes to seva bharathi, an NGO struggling for the relief work in mahabubnagar and Kurnool.
- ⊗ Matlab a successful seminar conducted at vbit with 70 participants from ECE from 5th-9th October and 88 participants from EEE from 22nd-25th September, under the guidance of faculty coordinator "Mr.Narsingh Yadav", MS, (Ph.D) Asst.prof, Dept of ECE.
- ⊗ Induction programme was conducted for the M.TECH students of ECE and CSE branches on Oct 23rd 2009.

*XYLYX our college's technical fest which is conducted at national level under the banner of the international organisation, IEEE banner. It is held between the months of February - march. It's a three day event consisting of various events ranging from recreational to technological events. Participation takes place in large number with the participants pouring in from various institutions. Lucrative prizes are offered including cash prizes..it is an open event and refreshments are provided for the participants..*

## AVISHKAAR

Avishkar' the word itself means invention or discover. It's an event which provides a platform for an individual to rediscover his communication skills and to display one's potential strength. However this is only restricted to the B. Tech first years, as the main aspect or goal of this event is to provide professional exposure which they will eventually face in the future.
