EDITOR'S NOTE

I am elated to welcome you to a place that will be your haven for the next few years. Now, at this moment, you stand here, brimming with vitality and optimism, even if a touch of trepidation lingers. That is completely understandable and okay. College is a profound change, and it can be overwhelming.

Your presence here is a testament to the boundless ambition and extraordinary talent that lies within you. I believe in your ability to accomplish anything you put your heart and soul into. College is truly a transformative period in your life, where you have the incredible opportunity to delve into your passions, forge deep connections, and embark on a journey of self-discovery. Here, you will find an abundance of support awaiting you. Our exceptional faculty is wholeheartedly committed to guiding you towards extraordinary achievements, while our diverse student body offers a nurturing environment for meaningful collaborations. Rest assured, there is an endless array of chances that will aid your personal and academic growth. I urge you to embrace and cherish every single resource and opportunity that comes your way. Whether it's the joy of joining a club, the excitement of participating in a research project, or the anticipation of attending a career fair, these experiences will help you uncover the depths of your passions.

Above all, I urge you to never lose sight of the reason that led you to take on this beautiful journey of pursuing your passion. You have the potential to make a real difference in the world, and I believe in you. On behalf of Team StuTalk, I welcome you to this exciting journey ahead at VBIT!

INSTITUTE VISION

To emerge as a premier institution for technical education in the country through academic excellence and to be recognized as centre for excellence in Research and Development.

INSTITUTE MISSION

To establish a strong institute by consistently maintaining state of the art infrastructure and a cohesive, world class team by providing need based technical education.

ROADMAP

YOUR DESTINY, YOUR SCHEDULE

Setting up a schedule or planner is essential. An agenda serves as a guide for achieving goals. Consider it your road map to success; without it, you would be aimlessly wandering and wasting time.

EMBRACE YOUR QUIRKINESS

No one has ever stood out by blending in. It is important to step out of your comfort zone and try new things. Explore various activities and find your forte, which you can expand on. By doing this, you uncover your strengths and passions.

THE CLUBS

After laying the groundwork for pursuing eccentric interests, the next step is to locate appropriate platforms that help you hone your skills. VBIT has 27 different clubs that serve as such venues.

BREAKDOWNS AND REVELATIONS

College life isn't always unicorns and rainbows. While being positive will make it simple, you will always have ups and downs. Sometimes the downs are more prominent. Having a clear picture of your goal usually works as a coping mechanism.

FORUMS

IEEE - VBIT SB

IEEE - VBIT SB is a non-profit student organization for the advancement of technology. It fosters interest in the engineering profession conducting various technical events under different societies of the Student Branch.

IETE - ISF VBIT

IETE - ISF VBIT, established in 2008, empowers youth in technical fields through development programs, industrial visits, and events like Technotsav and Sowparnika, where students build projects to enhance their expertise in their chosen fields.

SAE VBIT

SAE VBIT is a student branch of SAE India SS. They focus on enhancing the skills of students in the area of Automobile Engineering. They conduct various events, industrial visits, and workshops to aid the students in learning through practical and hands-on experience.

IGBC - VBIT SC

IGBC - VBIT SC is an official club of the Dept of CE. They educate bright young minds to establish a connection with the business world and accredit them as "IGBC ASSOCIATE." By hosting various events, they offer technical understanding to advance students' understanding of the Green Building.

ELITE

The MBA Department's forum, ELITE, connects the business world with academics. They strive to identify various professional and extracurricular activities that empower students with industrial competency. They also conduct domain-specific business simulation activities.

Shodh

Shodh, VBIT's innovation center, offers students a chance to learn, inspect, and be innovative. This forum is for students who want to demonstrate their entrepreneurial abilities. One of the products of Shodh was the AR-based start-up Z.A.R.C.

EpsilonPi

EpsilonPi is the first machine-learning Club at VBIT. They primarily focus on meeting the unmet needs of aspiring machine learning enthusiasts. The club aims to provide a supportive environment for students to learn about and experiment with artificial intelligence and showcase their projects.

coding.Studio()
by members of VBIT

coding.Studio()

coding.Studio(), the programming club of VBIT, aims to elevate the coding culture in the college. They work on college-related projects like the Abhyas and Pratibha Portals in addition to trying to solve real-world issues. They also host events to help students build open-source projects.

Google Crowdsorce VBIT

Google Crowdsorce VBIT, established in 2023, is a Google-backed platform. Their primary objective is to gather human intelligence and insights to improve the company's products and services. They aim to bridge the gap between machine learning algorithms and human intelligence.

ROBOTICS Club VBIT

Robotics

Robotics Club - VBIT is a platform for students who are passionate about Robotics. This forum aims to help students improve their skills, like designing and building. The club arranges workshops that provide students with practical knowledge of automotive technologies.

Abhedya

Abhedya was established in 2022 to promote the importance of cybersecurity among students. They inspire engineers to learn more and pursue a career in the field. They conduct events and hold workshops to help students learn more about internet security.

ISE

... think beyond academics

ISE

ISE - Institute of Student Engineering is a non-profit organization that has fostered the idea of professionalism in the student community. They strive to help students with a zest for becoming entrepreneurs by training their talents with an ideology to build abilities beyond academics.

Data Vedhi

Data Vedhi, inaugurated in 2022, is the student forum of the data science department. Their main goal is to establish data integrity across all sources and promote a higher level of data efficiency using scientific methodologies.

STUTALK
VOICE OF VBIT

StuTalk

StuTalk is the official magazine forum of VBIT. They are a flawless blend of creativity, literature, and journalism. StuTalk publishes magazines twice annually. The official StuTalk website is where student-written blogs are shared.

Dyuthi-NSS

Dyuthi, the official NSS unit of VBIT, is a service-oriented student body that runs for the greater good of society. The program aims to instill the idea of social welfare in students and provide service without bias.

Aashay X Cast

Aashay is the official film club of VBIT. They support young people with a passion for filmmaking who aspire to be the future of cinema. In 2021, Aashay and CAST worked together to plan events where students could write and perform their films.

Eco Club

Students at VBIT started the Eco-Club as a way to promote environmentally responsible behavior and work toward a greener planet. They instill ecological awareness and ignite compassion in the students. They plan a variety of activities where students engage in environmental preservation.

Dhrona

Dhrona is a service-oriented club of VBIT that aims to provide a platform for students willing to appear for the Civil Services exam. The forum conducts regular classes and guide the students who want to enhance their knowledge and crack the examination.

Street Cause

Street Cause - VBIT, is one of the actively functioning chapters of Street Cause - Hyderabad. For the betterment of humanity, they organize fundraising events like Run for Cause, Flair Hunt, and Fusion D3, as well as drives like Blanket Donation Drive, Vastra Dana, Project Aqua, etc.

Chitrika
Lens of VBIT

Chitrika

Chitrika, the VBIT photography club, seeks to support students who are enthusiastic about the art. Termed the 'Lens of VBIT', their primary motive is to help students shape their outlook on photography.

Srishti

Srishti - the Literary Club of VBIT, was established by the Department of English. Srishti intends to provide a creative environment for students with a literary interest. Odyssey, Srishti's flagship event, is a two-day book fair that brings together young people who love literature.

Virinchi

Virinchi is the cultural club of VBIT that bestows a platform for student's significant talents. They conduct various cultural events that enable the students to discover their skills. Each year, there are events like the VIBHA, Prathibha, National Youth Day, Kite, and Rangoli festivals.

VBIT MUN

VBIT MUN is a platform for discussion, deliberation, and dissection of global politics. This conference attracts a wide range of delegates from various institutions. Students representing various countries at the United Nations hope to learn about current global events and diplomacy.

TEDxVBIT

The idea for TEDxVBIT came from VBIT's desire to provide students with the chance to learn about and share great ideas and stories. With phenomenal speakers who strive to bring new ideas into their community, TEDxVBIT has seen four incredible seasons of ideas, stories, culture, and learning.

Ganith

Ganith, the mathematics club of VBIT, motivates students to broaden their viewpoints on mathematics and apply their theoretical understanding to solve real-world problems. The club organizes many events to deepen the knowledge and expertise of students in mathematics.

Sama Sangathan

Sama Sangathan - The Women Protection Cell of VBIT, guarantees that all female students and staff are safe and healthy. Through awareness programs, they work to stop harassment, provide counseling, and promote gender equality.

Vaarta

Vaarta is a student-led initiative that encourages knowledge and awareness of current events through regular social media updates on national and international news. They believe that every student should improve their knowledge of global events.

EDITORIAL BOARD

SKILLS are invaluable assets that can significantly enhance your performance in any domain. Whether you aim to bolster your technical expertise, refine your managerial acumen, or nurture essential soft skills, a robust skill set is your key to differentiation. Only by continuously honing your skills through a combination of structured courses and real-world applications, you can truly stand out and excel in your chosen path.

However, the quest for these skills and how to acquire them can be a challenge. To aid your journey, here's a curated list of free courses that can empower you with the knowledge and capability to outshine your peers and advance in your field of interest.

CODING

Coding is a skill that one needs to have to get into any technical field. To get started,

Codecademy is the best resource to learn the basics of programming. They offer a variety of courses for different languages like Python, HTML/CSS, Javascript etc.

Freecodecamp is another option to learn to code. They offer a full curriculum that teaches you skills to become tech savvy.

DESIGN

If you are someone who wants to get into the creative world these courses will give you headstart into the designing career -

Uxuiopen.com is a website that provides a complete roadmap and A-Z course to get into UI/UX designing along with a capstone project.

Great learning - Intro to Graphic Designing with Photoshop. Great learning is indeed a great platform to get started with designing. This course briefs and gives hands-on experience in designing using Photoshop.

RECOMMENDS

MARKETING

Marketing is essential for the outreach of a product. These are a few free courses on marketing for you to excel at.

edX - Introduction to Marketing: University of British Columbia covers everything you need to get a basic idea of or get into the marketing world.

Great Learning - Marketing Foundations: They offer a course on core concepts, which is a prominent start for beginners.

BUSINESS MANAGEMENT

Understanding the concepts of creating a successful business strategy is essential for any business and management project. Developing a plan for the future of a business requires an understanding of the market, customer needs, goals, and competition, all of which are accessible from the below-mentioned website.

stoa.com newsletter is an MBA in your mailbox. This newsletter provides practical insights on business, management and careers.

YOUTUBE

YouTube is one of the best sources of entertainment, but when used right, it could be the best platform for learning. There's so much on YouTube, and finding the right channel for you is crucial. Here are a few YouTube channels that we advocate:

Web Dev Simplified

Abdul Bari

PiXimperfect

Ansh Mehra

Neil Patel

School of Business

Harvard
Business Review

VIBHA

2K23

The most anticipated event on campus, VIBHA, the cultural fest of VBIT, was organized by Virinchi on April 27 and 28, 2023. VIBHA is the culmination of a year's worth of anticipation, with thrilling performances that include traditional dance and music concerts. Delicious local food was served at several food stands, adding to the celebratory ambience.

RAVATOR

JAMMERS

EVENTS

A guest lecture on "IoT and Open Hardware" was presented by Mr. Rajasekhar, Associate Consultant, Infosys. The speaker discussed summer internship on IoT. -Dept. Of ECE.

18th APRIL 2023

A workshop on "Career Opportunities in Logistics and Supply Chain Sector in India", was addressed by Dr. Amit Hedau, Asst. Prof, NICMAR University. - Dept. of MBA.

25th APRIL 2023

25th APRIL 2023

5th MAY 2023

A seminar on "Career Opportunities in Project Management" was given by Mrs. Vijayeta Malli, Assistant Professor, NICMAR University. - Dept. of MBA.

A guest lecture on "Microsoft AZURE-AI Fundamentals" was addressed by Dr. V. Venkata Ramana, in charge of the Centre for Artificial Intelligence, SR University. - Dept. of ME and CSM.

A faculty Development program on "Platform Developer T" was given by Mr. K. Raghavendra Swamy. The experts shared their knowledge in the cutting-edge tools. - Dept. of CSE.

19th JUNE 2023

A guest lecture by Girija Bai, an esteemed Bio-Science faculty was given to enlighten students about the power of yoga. - Dept. of CSC.

19th JUNE 2023

21st JUNE 2023

24th JUNE 2023

A one-day course on "Computerized Accounting System Using Tally-ERP" was led by Dr. Raj Kumar Boora, Faculty in Finance, School of Management, NIT, Warangal. - Dept. of MBA.

A one-day faculty development program on "Effective Learning Practices to Improve Success Index in Techno-Managerial Education - A Practical Approach" was organized. -IQAC.

GALORE

An industrial visit to C-MET was held by IEEE - VBIT SB, showcasing advanced technologies, giving insights into electronics, and allowing students to witness cutting-edge developments.

5th JUNE 2023

A one-day workshop on "ReactJS" was conducted for 3rd year CSE students at computer labs 9, 10, 11, and 12 by Mr. S. Naveen. The workshop covered the basics of React JS. - Dept. of CSE.

10th JUNE 2023

7th JUNE 2023

An industrial visit to BHEL was organized exclusively for 3rd year Mechanical students. The students gained valuable insights in industrial engineering. - Dept. of MECH.

15th JULY 2023

17th JUNE 2023

An industrial visit to KNR Infra Projects RMC, Keesara, was exclusively organized for 2nd year CE students. The students had first hand exposure to state-of-the-art technologies. - Dept. of CE.

19th JULY 2023

A site visit in VBIT to test the post-tension and pre-tension members of Structure was supervised by faculty co-ordinators Dr. U. Ramakrishna and Mr. G. Naresh Kumar Reddy. - Dept. of CE.

10th JULY 2023

In association with the Robotics Club, a guest lecture by Mr. V.B.S.S. Senthana, a Physical Design Engineer at Smart SOC, on "Awareness of Trends in the VLSI Industry" was conducted. - Dept. of ECE.

15th JULY 2023

An industrial visit to BSNL for 2nd year IT students provided them with valuable insights into the world of telecommunications. - Dept. of IT.

A lecture on "JDBC Connectivity", exclusively for 2nd year IT students was presented by Dr. M. Venkateswara Rao, Associate Prof. and HOD, Dept. of CSE. - Dept. of IT.

FORUM EVENTS

VBIT MUN 3.0

VBITMUN held a three-day event from May 5th to 7th, 2023, attracting over 100 delegates from across the nation. The event began with guest speeches, followed by a committee meeting. The Best-performing delegates for outstanding diplomacy and negotiation skills received awards.

GOOGLE CROWDSOURCE CONNECT 1.0

The goal of Google Crowdsourcing Connect 1.0, held on 25th Aug 2023 was to bring together a group of like minded people. The event provided a platform for students to express their thoughts, and goals for the future. It also allowed Google to interact with contributors, express gratitude, and strengthen community bonds.

NEURO ROBOTICS WORKSHOP

IEEE-VBIT SB held a two-day workshop on Neuro-Robotics from March 31st to April 1st 2023, focused on establishing a direct interface between the human brain and robots for real-time control. Participants learned about Electroencephalography (EEG) and designed robots compatible with the brain-computer interface. The workshop included hands-on demonstrations, guest speaker sessions, and practical applications that provided students with a strong foundation and practical experience in the emerging field of neurorobotics.

SPORTS

2022

-

2023

VBIT has always encouraged sports and the well-being of the students. The college provides a platform for students to showcase their abilities and maintain their fitness through various sports such as basketball, volleyball, football, kabaddi, and many more.

CAREER OPTIONS

DATA SCIENTIST

Data science is a highly sought-after career that involves analyzing and interpreting complex data to provide valuable insights and solve problems.

SOFTWARE ENGINEER

Software Engineering offers a challenging and rewarding career path, allowing individuals to use their creativity and problem-solving skills to develop innovative solutions.

PRODUCT MANAGER

Product Managers are accountable for the effective completion of a company's product. A product manager should have business knowledge, technical knowledge, communication skills, problem-solving abilities, etc.

UX DESIGNER

One of the most sought-after professional paths is User Experience. It is a career that focuses on creating enjoyable experience for people using digital products and services.

DIGITAL MARKETING

Digital marketing offers endless opportunities to showcase products and services to a global audience while constantly adapting to new technologies and strategies.

CLUB POSITIONS

DESIGNING

A Designer's responsibility in a club is to use unique and engaging designs to convey the club's identity and message through visual means. They create items like logos, posters, and social media posts to capture the soul of the team and attract members.

A club's Documentation team is in charge of documenting and archiving major club activities, events, and accomplishments. This role involves working with cross-functional teams to gather information and ensure the content aligns with event specifications.

DOCUMENTATION

MARKETING

A club's Marketing team is responsible for publicizing the club's activities, events, and values. They devise various ways to boost membership, participation, and awareness through a variety of outlets, such as social media, posters, and campaigns.

The Treasury team is in charge of the club's finances and budget. They handle financial transactions, track income, expenses, and ensure budget compliance. They ensure the forum's financial stability and transparency, allowing the organization to fund events effectively.

TREASURY

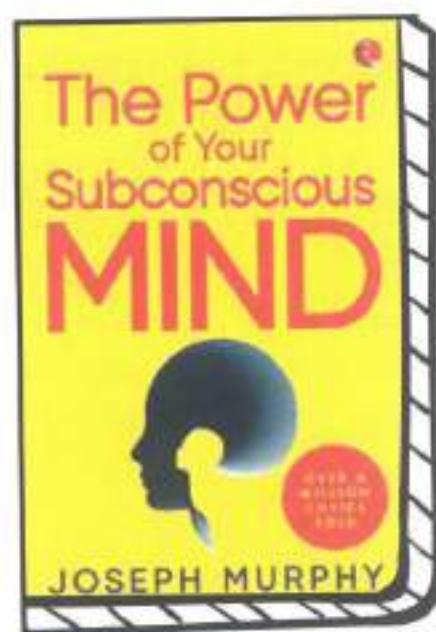

TECHNICAL TEAM

The Technical team of a club is responsible for creating and maintaining the club's online media. They design and develop the club's website, ensuring that it is user-friendly, visually appealing, and up-to-date with relevant information.

SELF HELP

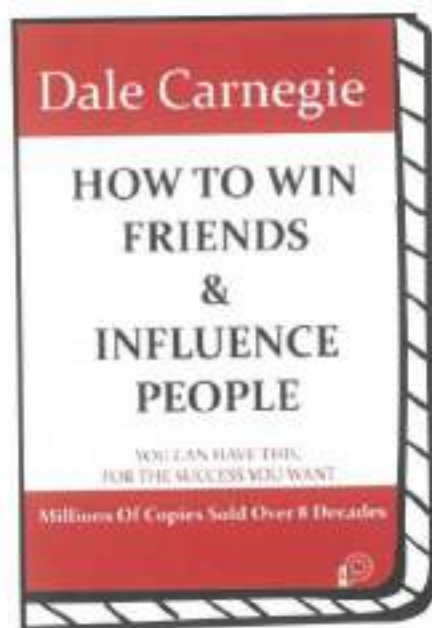

The most pressing issue of our time is the damage that stress and anxiety have caused. Not everyone handles stress as well as others do. Self-help is a terrific tool for individuals who only need a little push in the right direction. The goal of this sub-genre of literature, psychology, and personal development is to provide readers with the resources they need to make positive changes in their lives.

Here are some self-help books that we believe will inspire and motivate you:

The Power of Your Subconscious Mind by Joseph Murphy focuses on the impact of thoughts on reality and provides guidance on how to leverage the subconscious mind's capacity for positive change. In this book, methods for altering one's way of thinking and growing as a person are discussed.

How to Win Friends and Influence People by Dale Carnegie is a timeless guide that offers practical insights into building meaningful relationships, effective communication, and influencing others positively. Carnegie's advice gives readers practical social skills for both personal and professional success.

Dreams

- P. Laasyakshara, I CSE - C

Have you ever laid awake night after night pondering all the versions of yourself that never got past the threshold of fear—all the people you never met and all the things you could have done? Isn't it baffling how encouraging a little dream could bring about so much change? They nourish our souls, light our passions, and drive us to reach for the stars. They are the driving force behind numerous ambitions and serve as a symbol of hope and ambition. These visions that keep you awake in the middle of the night—let's talk about them.

We often throw away the essence of our being to adapt to societal expectations. Our unique and distinctive visions get lost in translation, and we accept the projections of others around us, resulting in us thinking inside the box. We sometimes lose the ability to fantasize and accept reality, especially in this mad dash of competitive exams. I remember being eager to fit into the box. Science or Business? Engineer or Doctor? For better or worse, we're here now.

Life has an absurd sense of humour and a knack for surprising us. Even with the burden of deferred, thwarted and neglected aspirations, we can contribute something new to the table each day and dream something new every minute. Although the term "Dream" has lost its magic through overuse, by using it to describe our dream car or home, we're still afraid to dream. However, the ability to dream of light beneath a never-ending tunnel of despair is what distinguishes humans. Our boldness in imagining the inconceivable may become a reality tomorrow. Undoubtedly, early humans who were scared of dreaming weren't the ones who invented the wheel. Every day, as children, we had different dreams. On Monday, a doctor; on Tuesday, a scientist. Never let that spirit dwindle.

My 'superficial dream' is to blissfully wander down a French Riviera among many others who have dared to dream, with a bright smile and nothing to think about. That is my dream. What about you?

"It's the possibility of having a dream come true that makes life interesting."
